Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

10/800,580

Applicant(s)

INOUE, KENJI

Examiner

Elizabeth M. Cole

Art Unit

1771

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 and 2 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☒ Claim(s) 1 and 2 is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☐ Claim(s) ____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. ____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Art Unit: 1771

1. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
2. In claim 1, it is not clear what is meant by "high molecular weight" because it is not clear whether this refers to number average or weight average molecular weight and also because the term "high" in claim 1 is a relative term which renders the claim indefinite. The term "high" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. The specification does not define what values would be considered high.
3. The terminal disclaimer filed on 12/19/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 10/764,618 and 10/664,628 has been reviewed and is accepted. The terminal disclaimer has been recorded.
4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.
5. Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 2001-89990 in view of Westerkamp, US Patent Application Publication 2002/0060057. JP '990 discloses a wet paper transfer belt comprising an elastomer layer and a

Art Unit: 1771

nonwoven layer wherein at least a portion of the nonwoven layer is exposed on the wet paper side. See page 3 of Applicant's specification as well as the machine translation which is attached. JP '990 differs from the claimed invention because JP '990 discloses the wet paper facing side of the belt comprises a hydrophobic coating. Westerkamp teaches at paragraph 0029 that the upper layer of a papermaking belt can be rendered hydrophobic, hydrophilic, stain releasing or anti-static depending on the particular properties of the fiber suspension. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have applied a hydrophilic coating to the surface of JP '990 as taught by Westerkamp. One of ordinary skill in the art would have been motivated to apply the coating in order to harmonize the surface of the belt with the fiber suspension as taught by Westerkamp.

6. Applicant's arguments filed 12/19/05 have been fully considered but they are not persuasive. With regard to the 112 2nd paragraph rejection of "high molecular weight" in claim 1, Applicant's argument that the term is used in the art has been carefully considered. However, in the instant case, it is not clear what materials would be considered to have a high molecular weight, and therefore the metes and bounds of the claim is not clear.

7. With regard to the art rejection, Applicant argues that JP '990 requires that one of the elements 3 and 2b be hydrophobic and that the other be hydrophilic. However, at paragraphs 0019-0020, JP '990 teaches that both elements can be hydrophobic and that the entire surface can be hydrophobic. JP '990 teaches that the entire fabric 3 and the entire elastic material 2 can be made from hydrophobic materials. Therefore, JP

Art Unit: 1771

'990 does not teach a non-uniform surface material and therefore, to combine the teachings of Westerkamp to JP '990 would not destroy the material of JP '990.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth M. Cole whose telephone number is (571) 272-1475. The examiner may be reached between 6:30 AM and 6:00 PM Monday through Wednesday, and 6:30 AM and 2 PM on Thursday.

Mr. Terrel Morris, the examiner's supervisor, may be reached at (571) 272-1478.

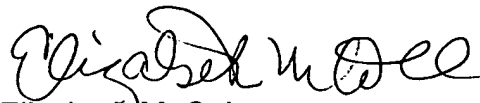

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

The fax number for all official faxes is (571) 273-8300.
